### DETAILED ACTION

Regarding the applicant's amendments after allowance under 37 C.F.R. §1.312, these amendments will allowed in part to the claims.

The proposed amendment to **claims 1 and 3** is **not entered** because it significantly changed the scope of independent claim and furthermore does not appear to be supported by the instant specification. Specifically, the claim would now limit the body to having only one partition wall having the specified thickness. In addition, the specification does not appear to support a body having only one partition provided with the specified surface roughness.

The proposed amendments in **claims 2, 4, 9, 11** **are entered** because they are grammatical changed that do not change the scope of the claims.
